

Homestay

International Students are offered accommodation while they study in Australia. This gives the student a unique opportunity to live in a caring family environment while learning about Australian culture and lifestyles.

All Homestay families work with the school to ensure the students welfare and are required to confirm to all EQI guidelines.

All students are met at the Airport upon their arrival and taken to their Homestay family. The Homestay Coordinator from the school will then meet all new students at their new home to ensure they have arrived safely and are settled and ready to commence their studies.

Centenary State High School began its International Student Programme with Education Queensland International in 2008. Our International student group is growing all the time as we welcome new students from all over the world. Our school has a wide and diverse cultural community welcoming students who wish to study in Australia.

Homestay Coordinator

The Homestay Coordinator finds suitable homes for International Students and works with the students to make sure

they are happy and settled with their Homestay family.

The Homestay Coordinator is available to the students at all times if any problems arise.

Guidance Officers and ESL

All of our International Students are supported in their course of study by **ESL** (English as a Second language) Programmes taught by qualified and caring teaching staff in small tutorials.

Our Guidance Officers are available to all students for advice on any school matter or assistance with any personal issues.
